**Manager of Technical Sales of a USA-based manufacturing company specializing in components and subsystems for the thin-film PVD (physical vapor deposition) market:**

- Demonstrable experience (3-5 years minimum) with international sales and management of a global network of sales representatives is highly beneficial as more than half of company revenue is attributed to international sales.
- B.S. in an engineering discipline is required. An advanced technical degree and/or MBA is a plus.
- Hands-on experience and/or working knowledge of PVD processes is useful as success in this position will in many cases hinge on crafting solutions using company products to address customer process and application requirements.
- Working knowledge of CRM software is essential.
- Excellent written and verbal communication skills required.
- Willingness to travel (30% domestic and/or international travel is anticipated)
- USA citizen or Permanent Resident Status (Green card) required.
- Up to date Covid-ID immunization record.
- Relocation to southwest Washington state, near Portland, will be required after a reasonable transition period.
- Near term potential to assume a key general management role in the organization.
- Competitive salary and benefits.
