The Vision of the Women in the SVC Committee is to provide a platform for women in the society to support each other and excel in the industry.

Our mission is to promote the work, innovation and achievements of women in the SVC Community. We plan to raise awareness of women in the industry, highlighting women speakers and chairs throughout the conference and encourage, engage and provide mentorship to the female students of the SVC Foundation and the women of the SVC Young Members Group. Come join us and see how you can be a part of this exciting group in the SVC!
